## ENTERPRISES, INC

### CUSTOM PLASTIC PROFILE EXTRUSIONS

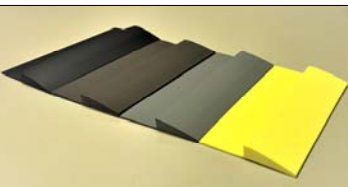

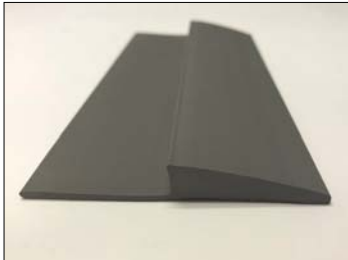

## MAT EDGING

### SOLID VINYL CARPET & MAT PROTECTION

Formtech's proprietary mat edging products provide a perfect transition from flooring to a surface applied mat. It is ideal for carpet, woven materials, PVC "noodle" or "spaghetti" mats. With various options for attaching your mat, our design is versatile and easy to cut and apply.

Our plastic compound is specially formulated to provide this durable smooth, matte surface finish that minimizes the appearance of scuffs or other wear and tear, better than gloss or satin surface finishes, to help maintain the professional look of the mat and lengthen its lifespan.

Product Description	Drawing (not shown to scale)	Overall Width	Ramp Length	Ramp Thickness	Feet per Roll
0.125" height		1.750"	1.000"	0.125"	120
