

FORMTECH

ENTERPRISES, INC

CUSTOM PLASTIC PROFILE EXTRUSIONS

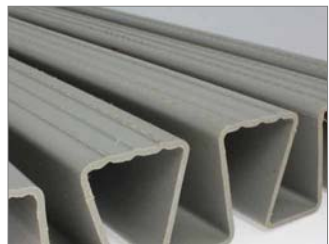

Shaping Endless Possibilities®
for over 50 Years

Formtech is a pioneer in the custom plastic extrusion industry. We have created benchmark technologies used today by many firms in the industry. Our reputation has been built on creative innovation, technical expertise and reliability.

OEM's of all sizes in a variety of industries appreciate our dedication to ensuring their needs are met. We help our customers discover the possibilities with material selection, design, and fabrication capabilities to deliver superior quality products at a competitive price.

Let's discuss your project so we can understand your needs and determine if we can provide a solution that meets or exceeds your expectations.

- Single and twin screw capabilities — purchasing flexibility depending on your annual volume needs and tooling investment
- Multiple color and material extrusions
- Inline and offline services—embossing/texturing, tape application, punching, slotting, notching, tab creation, wood grain patterns, and more
- State-of-the-art tooling
- Vacuum-calibrated, water-cooled sizing technology
- CAD engineering and design assistance
- Prototype development
- Product color matching
- Testing and quality control

COMPLEX EXTRUSIONS — Simple to complex co-extruded profiles up to 3 different materials to create products with multiple functionality.

SMALL TO LARGE PROFILES — From small 5mm to large 12" w x 8" d in custom lengths.

CLEAR PLASTIC EXTRUSIONS — Expertise in profiles with superior clarity.
